

State Route 41 Friant Auxiliary Lane - Phase II Fresno County

Project Purpose:

The purpose of this project is to improve traffic operations on northbound State Route 41 near the Friant Road interchange.

Project Description:

The project is located on Route 41 in Fresno County from 0.2 KM north of Alluvial Avenue Overcrossing to Friant Road Undercrossing. Construction of a median lane from north of Nees Avenue Overhead to north of Friant Road Undercrossing along State Route 41 mainline in the northbound direction. An auxiliary lane will be constructed from the Herndon Avenue northbound on-ramp to the auxiliary lane constructed in Phase I of this project completed in April 2006. An additional auxiliary lane would begin just north of the El Paso Undercrossing and the two auxiliary lanes would proceed to the Friant off-ramp.

Construction Cost: \$8 Million

Begin Construction: April 2007

End Construction: July 2009

Funding Sources: Transportation Congestion Relief Program (TCRP)
